

UX Designer + Researcher // marisabivi.ca // 613.875.8164 // hello@marisabivi.ca // Ottawa, ON

Summary

With a background in graphic design, I offer dynamic visual direction for UX projects, adeptly balancing technical constraints with user and stakeholder goals. My passion for B2B environments fuels my strategic approach and self-starter mindset, enabling me to drive initiatives from inception to completion. I thrive on collaboration and believe in aligning diverse perspectives to achieve the best outcomes. Motivated to continually expand my skills, I am dedicated to contributing effectively to projects and teams, enhancing value through ongoing professional development.

Work Experience

Senior UX/UI Designer
2023 - Present

Portage Cybertech

Working with high-level stakeholders, including Product Managers and UX Lead, to define the user experience vision for 3 products, with 2 being full redesigns.

- Working on 40+ features as a sole designer and with UX team members.
- Building research plans, conducting usability tests then analyzing findings and presenting results.
- Working with the UX team to build multiple product design systems emphasizing scalability in order to mitigate any future pain points.

UX/UI Designer
2022-2023

amcs (Formerly Figbytes Inc.)

Focused on 2 upcoming product solutions, while assisting in the production of a scalable design system to support UX and dev teams in the full product redesign.

- Conducted secondary research for upcoming solutions: Water Stewardship and Supplier Transparency (Scope 3).
- Interviewed potential clients to understand their goals and needs in the above problem spaces.
- Designed screens to match the current and new product look.
- Contributed, with the UX team, to designs of key flows for the product refresh.
- Trained internal and external designers on the design system and give feedback on their work.

UX Designer
2019-2022

TrueContext (Formerly ProntoForms)

Designed high fidelity mock-ups for prototypes to align goals and validate ideas with PO, Devs, other UX Designers and conduct user testing. Then analyzing and compiling responses.

- Spearheaded 16 new features and 6 improvements, 13 have launched to-date and 3 more in the pipeline.
- Championed internal design system which emphasized scalability to mitigate any future challenges.
- Created materials + designs for internal knowledge transfer presentations.
- Planned 18 internal events for employees, and their children, as part of the Social Committee.

UX Designer + Researcher // marisabivi.ca // 613.875.8164 // hello@marisabivi.ca // Ottawa, ON
